Career Objective

Seeking a backend/full-stack internship to apply my MERN stack skills and contribute to impactful projects. Experienced in building REST APIs, JWT authentication, and scalable MongoDB databases. Previously interned at Infosys Springboard as a Full Stack Intern.

Education

Galgotias University, Greater Noida <i>B.Tech in Computer Science Engineering (Expected 2027)</i>	<i>CGPA: 8.44 (up to 3rd Year)</i> <i>2023 – Present</i>
Somerville School, Vasundhara <i>Intermediate (CBSE)</i>	<i>2022</i>
Somerville School, Vasundhara <i>High School (CBSE)</i>	<i>2020</i>

Experience

Full Stack Intern (Backend Lead) <i>Infosys Springboard</i>	<i>Feb 2026 – Apr 2026</i>
◦ Led backend development of Civix (MERN stack), designing and building 15+ REST API endpoints for authentication, petitions, and polling modules. ◦ Implemented JWT-based auth with role-based access control (user/admin/official), reducing unauthorized access attempts to zero in testing. ◦ Collaborated with a 5-member cross-functional team to integrate React dashboards with backend APIs; contributed UI components using Tailwind CSS.	

Projects

Civix – Civic Engagement Platform	<i>Live</i> 🔗 — <i>GitHub</i> 🔗
◦ Built a full-stack civic platform supporting petitions, votes, and comments end-to-end with secure JWT authentication and persistent session management. ◦ Designed a role-based admin panel (3 roles: citizen/official/admin) for petition approval workflows, user verification, and content moderation. ◦ Engineered MongoDB schemas with Mongoose ODM for signatures, votes, and nested comments; structured for horizontal scalability.	
Habit Builder	<i>Live</i> 🔗 — <i>GitHub</i> 🔗
◦ Built a MERN-based habit tracking app with full CRUD operations and a RESTful API; supports daily streak tracking across multiple habits. ◦ Secured public API routes using Upstash Redis rate limiting, capping requests at 10/minute to prevent abuse.	

Skills

- **Languages:** JavaScript (ES6+), Java, Python, SQL, HTML5, CSS3
- **Frontend:** React.js, Tailwind CSS
- **Backend:** Node.js, Express.js, REST APIs, JWT Authentication, Axios
- **Databases:** MongoDB (Mongoose ODM), MySQL, Redis, PostgreSQL
- **Tools & Concepts:** Git, GitHub, Postman, MVC Architecture, Context API, Middleware, OOP, Data Structures & Algorithms

Certificates

- **Agile Scrum Foundation** – Infosys Springboard
- **Database Design** – Oracle Academy (ID: 1729085490945)
- **Software Testing** [🔗](#) – NPTEL, IIT (Feb–Mar 2026) — *Top 5% nationally; Course Topper*
